An ace-high straight flush, commonly known as a royal flush, is the best possible hand in many variants of poker.

In poker, players form sets of five playing cards, called hands, according to the rules of the game.[1] Each hand has a rank, which is compared against the ranks of other hands participating in the showdown to decide who wins the pot.[2] In high games, like Texas hold 'em and sevencard stud, the highest-ranking hands win. In low games, like razz, the lowest-ranking hands win. In high-low split games, both the highest-ranking and lowest-ranking hands win, though different rules are used to rank the high and low hands.[3][4]

Each hand belongs to a category determined by the patterns formed by its cards. A hand in a higher-ranking category always ranks higher than a hand in a lower-ranking category. A hand is ranked within its category using the ranks of its cards. Individual cards are ranked, from highest to lowest: A, K, Q, J, 10, 9, 8, 7, 6, 5, 4, 3 and 2.[5] However, aces have the highest rank under aceto-five high or six-to-ace low rules, or under high rules as part of a five-high straight or straight flush.[6][7] Suits are not ranked, so hands that differ by suit alone are of equal rank.[8] There are nine categories of hand when using a standard 52-card deck, except under ace-to-five low rules where straights, flushes and straight flushes are not recognized. An additional category, five of a kind, exists when using one or more wild cards. The fewer hands a category contains, the higher its rank.[9] There are 52! (52 5)! = 311,875,200 {\displaystyle {\begin{matrix}{\text{frac}}{\text{frac}}}}

5)!5!}}=2{,}598{,}960\end{matrix}}} distinct hands, because the order in which cards are dealt or arranged in a hand does not matter.[10] Moreover, since hands differing only by suit are of equal rank, there are only 7,462 distinct hand ranks.[11]

Hand-ranking categories [edit]

* Only possible when using one or more wild cards ** Category does not exist under ace-to-five low rules

Five of a kind [edit]

Five of a kind, aces

Five of a kind is a hand that contains five cards of one rank, such as 3 3 3 3 3 ("five of a kind, threes"). It ranks above a straight flush but is only possible when using one or more wild cards, as there are only four cards of each rank in the deck.[6] Five of a kind, aces, A A A A Jkr, becomes possible when a joker is added to the deck as a bug, a form of wild card that may act as a fifth

ace.[5] Other wild card rules allow jokers or other designated cards to represent any card in the deck, making it possible to form five of a kind of any rank.[12]

Each five of a kind is ranked by the rank of its quintuplet. For example, Q Q Q Q ranks higher than 6 6 6 6 6.[6][13]

Straight flush [edit]

A jack-high straight flush

A straight flush is a hand that contains five cards of sequential rank, all of the same suit, such as Q J 10 9 8 (a "queen-high straight flush").[4] It ranks below five of a kind and above four of a kind.[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight flush) or low (as in 5 4 3 2 A, a five-high straight flush), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high flush, but not a straight).[6][13] Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high flush). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high flush).[14] Under ace-to-five low rules, straight flushes are not possible (so 9 8 7 6 5 is a nine-high hand).[7]

Each straight flush is ranked by the rank of its highest-ranking card. For example, 10 9 8 7 6 ranks higher than 8 7 6 5 4, which ranks higher than 6 5 4 3 2. Straight flush hands that differ by suit alone, such as 7 6 5 4 3 and 7 6 5 4 3, are of equal rank.[6][13]

An ace-high straight flush, such as A K Q J 10, is called a royal flush or royal straight flush and is the best possible hand in ace-high games when wild cards are not used.[5][15][16] A five-high straight flush, such as 5 4 3 2 A, is called a steel wheel and is both the best low hand and usually the best high hand of the showdown in ace-to-five high-low split games.[4]

Four of a kind [edit]

Four of a kind, fives

Four of a kind, also known as quads, is a hand that contains four cards of one rank and one card of another rank (the kicker), such as 9 9 9 J ("four of a kind, nines"). It ranks below a straight flush and above a full house.[5]

Each four of a kind is ranked first by the rank of its quadruplet, and then by the rank of its kicker. For example, K K K K 3 ranks higher than 7 7 7 7 Q, which ranks higher than 7 7 7 7 10. Four of a kind hands that differ by suit alone, such as 4 4 4 4 9 and 4 4 4 4 9, are of equal rank.[6][13] Full house [edit]

A full house, sixes over kings

A full house, also known as a full boat or a tight or a boat (and originally called a full hand), is a hand that contains three cards of one rank and two cards of another rank, such as 3 3 3 6 6 (a "full house, threes over sixes" or "threes full of sixes" or "threes full").[17][18] It ranks below four of a kind and above a flush.[5]

Each full house is ranked first by the rank of its triplet, and then by the rank of its pair. For example, 8 8 8 7 7 ranks higher than 4 4 4 9 9, which ranks higher than 4 4 4 5 5. Full house hands that differ by suit alone, such as K K K J J and K K K J J, are of equal rank.[6][13] Flush [edit]

A jack-high flush

A flush is a hand that contains five cards all of the same suit, not all of sequential rank, such as K 10 7 6 4 (a "king-high flush" or a "king-ten-high flush").[19] It ranks below a full house and above a straight.[5] Under ace-to-five low rules, flushes are not possible (so J 8 4 3 2 is a jack-high hand).[7]

Each flush is ranked first by the rank of its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K J 9 6 4 ranks higher than Q J 7 6 5, which ranks higher than J 10 9 4 2, which ranks higher than J 10 8 6 3, which ranks higher than J 10 8 4 3, which ranks higher than J 10 8 4 2. Flush hands that differ by suit alone, such as 10 8 7 6 5 and 10 8 7 6 5, are of equal rank.[6][13]

Straight [edit]

A ten-high straight

A straight is a hand that contains five cards of sequential rank, not all of the same suit, such as 7

6 5 4 3 (a "seven-high straight"). It ranks below a flush and above three of a kind.[5] Under high rules, an ace can rank either high (as in A K Q J 10, an ace-high straight) or low (as in 5 4 3 2 A, a five-high straight), but cannot simultaneously rank both high and low (so Q K A 2 3 is an ace-high hand).[6][13] Under deuce-to-seven low rules, an ace always ranks high (so 5 4 3 2 A is an ace-high hand). Under ace-to-six low rules, an ace always ranks low (so A K Q J 10 is a king-high hand).[14] Under ace-to-five low rules, straights are not possible (so 10 9 8 7 6 is a ten-high hand).[7]

Each straight is ranked by the rank of its highest-ranking card. For example, J 10 9 8 7 ranks higher than 10 9 8 7 6, which ranks higher than 6 5 4 3 2. Straight hands that differ by suit alone, such as 9 8 7 6 5 and 9 8 7 6 5, are of equal rank.[6][13]

An ace-high straight, such as A K Q J 10, is called a Broadway straight,[20] while a five-high straight, such as 5 4 3 2 A, is called a baby straight,[21] bicycle or wheel and is the best possible hand in ace-to-five low games (where it is a high card hand, not a straight).[22][23]

Three of a kind [edit]

Three of a kind, queens

Three of a kind, also known as trips or a set, is a hand that contains three cards of one rank and two cards of two other ranks (the kickers), such as 2 2 2 K 6 ("three of a kind, twos" or "trip twos" or a "set of twos"). It ranks below a straight and above two pair.[5]

Each three of a kind is ranked first by the rank of its triplet, then by the rank of its highest-ranking kicker, and finally by the rank of its lowest-ranking kicker. For example, 6 6 6 Q 4 ranks higher than 3 3 3 K 2, which ranks higher than 3 3 3 J 7, which ranks higher than 3 3 3 J 5. Three of a kind hands that differ by suit alone, such as 9 9 9 10 8 and 9 9 9 10 8, are of equal rank.[6][13] In community card games, such as Texas hold 'em, three of a kind is called a set only when it comprises a pocket pair and a third card on the board.[24]

Two pair [edit]

Two pair, jacks and threes

Two pair is a hand that contains two cards of one rank, two cards of another rank and one card of a third rank (the kicker), such as J J 4 4 9 ("two pair, jacks and fours" or "two pair, jacks over fours" or "jacks up").[17][25] It ranks below three of a kind and above one pair.[5]

Each two pair is ranked first by the rank of its higher-ranking pair, then by the rank of its lower-ranking pair, and finally by the rank of its kicker. For example, 10 10 2 2 K ranks higher than 5 5 4 4 10, which ranks higher than 5 5 3 3 Q, which ranks higher than 5 5 3 3 J. Two pair hands that differ by suit alone, such as K K 7 7 8 and K K 7 7 8, are of equal rank.[6][13]

One pair [edit]

One pair, tens

One pair, or simply a pair, is a hand that contains two cards of one rank and three cards of three other ranks (the kickers), such as 4 4 K 10 5 ("one pair, fours" or a "pair of fours"). It ranks below two pair and above high card.[5]

Each one pair is ranked first by the rank of its pair, then by the rank of its highest-ranking kicker, then by the rank of its second highest-ranking kicker, and finally by the rank of its lowest-ranking kicker. For example, 9 9 Q J 5 ranks higher than 6 6 K 7 4, which ranks higher than 6 6 Q J 2, which ranks higher than 6 6 Q 8 7, which ranks higher than 6 6 Q 8 3. One-pair hands that differ by suit alone, such as 8 8 10 6 5 and 8 8 10 6 5, are of equal rank.[6][13]

High card [edit]

High card, king

High card, also known as no pair or simply nothing, is a hand that does not fall into any other category, such as K J 8 7 4 ("high card, king" or "king-jack-high" or "king-high").[17][26] Note that under ace-to-five low rules, straights, flushes and straight flushes are not possible, so such hands are instead high card hands.[7] It ranks below one pair.[5]

Each high card hand is ranked first by the rank of its highest-ranking card, then by the rank of its second highest-ranking card, then by the rank of its third highest-ranking card, then by the rank of its fourth highest-ranking card, and finally by the rank of its lowest-ranking card. For example, K 6 5 3 2 ranks higher than Q J 6 5 3, which ranks higher than Q 10 8 7 4, which ranks higher than Q

10 7 6 4, which ranks higher than Q 10 7 5 4, which ranks higher than Q 10 7 5 2. High card hands that differ by suit alone, such as 10 8 7 6 4 and 10 8 7 6 4, are of equal rank.[6][13] Under deuce-to-seven low rules, a seven-five-high hand, such as 7 5 4 3 2, is the best possible hand.[27] Under ace-to-six low rules, where aces have the lowest rank, a six-four-high hand, such as 6 4 3 2 A, is the best possible hand.[28] Under ace-to-five low rules, where aces have the lowest rank and straights, flushes and straight flushes are not possible, a five-high hand, such as 5 4 3 2 A or 5 4 3 2 A, commonly known as a bicycle or wheel, is the best possible hand.[7][22] See also [edit] References [edit]

Comienzo de un nuevo capítulo político en el Reino Unido

Con el resultado de las elecciones casi decidido, la campaña actual es menos un concurso y más una larga coronación para un partido y un extenso funeral para el otro. Keir Starmer ya es tratado como el próximo primer ministro en lugar de como el líder de una oposición que lucha por derrocar al titular. El destino de los conservadores es solo incierto en términos del grado de derrota: será una disminución significativa o el olvido. Durante este interregno, el futuro comienza a asomarse.

El próximo capítulo político ya tiene contornos claros. El tono y la política del laborismo están establecidos. No habrá conejos sacados de la chistera, ningún agrado de multitudes, ningún alboroto circense. Lo que habrá es la larga vista del consultor de gestión (por supuesto, con las mangas arremangadas) que ha identificado ineficiencias en el negocio en dificultades y necesitará unos cuantos trimestres para que los dividendos de su trabajo aparezcan en el balance. Con el rechazo de Starmer a "impuestos y gastos" viene una demora en un concepto de crecimiento que se basa en una falta de especificidad sobre lo que se puede liberar en la economía, en la fe en las cifras generales que se le han dado y en la sumisión apaciguada del electorado después de años de elegir malos directivos.

Este es un experimento de teoría económica en lugar de una promesa basada en hitos concretos. (Otros podrían llamarlo pensamiento mágico que utiliza herramientas limitadas para revertir tendencias de crecimiento consistentes desde el crash financiero.) Lo que producirá en el corto plazo para nuestro gobierno en espera será un gobierno que espera. Si el eslogan de la campaña ha sido "cambio", el que sigue a la victoria probablemente sea: "Te lo dijimos, llevará tiempo."

Un primer ministro sin encanto

Espero que se relaje una vez en el poder, si solo es porque mantenerse en el corsé sería un desperdicio de un gran dividendo de buena voluntad que Starmer podría convertir en poderosa afección y lealtad. Y necesitará agilidad y resiliencia. Eche un vistazo a las probabilidades del próximo líder del Partido Conservador. Con figuras como Kemi Badenoch, Suella Braverman y Priti Patel a la cabeza, lo que se enfrentará al laborismo en la oposición será una especie de política de desagüe ruidoso. Hará que Sunak, que tanto exasperó a Starmer durante su primer debate electoral, parezca bastante decente y contenido en comparación.

Eso sin mencionar todo lo que esta chusma de la derecha desatará en la prensa de derechas una vez que se declare la temporada de "Starmergeddon". Un partido y una red de influenciadores políticos y culturales que por fin están desvinculados del suelo del gobierno serán más libres que nunca para liberar invectivas, política personal y divisividad en la vida política. Su doncella será la Reforma y Nigel Farage, que ya está de vuelta en casi toda su omnipresencia en las ondas.

El pequeño número de escaños que el partido está proyectado a ganar le dará representación sin la necesidad de un programa político real. Tendrá una plataforma para el oportunismo espeluznante que capitaliza un momento febril de transición en la política británica y el apetito sin

fin de los medios por el espectáculo. La Reforma hará ruido, ocupará aire y garantizará que la inmigración siga siendo un punto tóxico alrededor del cual puede coalescer toda clase de oscuridad de extrema derecha.

Ese es el problema cuando una elección se pierde en gran medida por los conservadores en lugar de ser activamente ganada por el laborismo. Cuando estás a punto de ganar una mayoría abrumadora por defecto, mantenerse muy quieto y posicionarte para que los escaños caigan en tu regazo puede tener sentido en ese momento. Pero el precio por eso es no poder cuestionar los axiomas de derecha en cultura y raza. Ese espacio está entonces abierto a fuerzas como la Reforma y otras bandas de alborotadores que pueden ser lo suficientemente grandes y pequeñas como para envenenar constantemente el ánimo político y agravar las tensiones raciales.

Pero antes de que tengamos que preocuparnos por eso, habrá un momento que espero que no sea menos plano por ser predecible. El día en que los conservadores sean removidos del poder, después de haber tenido una base sólida durante tanto tiempo, se sentirá como una apertura, sin importar cuánto nos hayan dicho que controlemos nuestras expectativas. Quizás simplemente experimentar su derrota, en lugar de predecir constantemente, hará que otras cosas que parecían imposibles sean menos así.

Apostaría a que muchos que están fríos con el concurso hasta ahora sentirán un estremecimiento de esperanza. Dejaré que florezca y arrojaré a ese día aleluyas y inshallahs que la energía liberada en esa ventana pueda ser tomada en el futuro por un gobierno animado y liberado por la magia de ese momento. Si eso no sucede, no tendremos necesidad de adivinos para entender qué será el día siguiente: es el mismo que los días que ya están aquí.
